

POR-15 CALIPER PAINTING KIT

Application Information

COLOURS AVAILABLE: Black, Silver, Blue, Red, Yellow

Kit Contains:

- 1 litre Marine Clean
- 1 100 mls POR-15 Rust Preventive paint
- 1 250ml Metal Ready
- 1 250 mls Caliper Paint
- 1 1 roll masking tape
- 2 Brushes
- 1 Directions to the job right

DIRECTIONS:

- Step 1:** Remove all four wheels from the vehicle. Calipers don't need to be removed. Do not remove brake line.
- Step 2:** Clean surfaces to be painted with Marine Clean (read directions on Marine Clean) Spray on the cleaner and brush out dirt and grime with a small scrubbing brush or toothbrush. Wear protective gloves and glasses when cleaning your calipers. Read directions on Caliper cleaner container before using.
- Step 3:** Wash cleaned calipers thoroughly with water and dry with a clean towel. Now brush on Metal Ready. Keep surface wet for 10 minutes. Then wash off MetalReady with water and dry thoroughly.
- Step 4:** Mask off the area not to be painted. Tape off brake bleeder screw, brake lines and Caliper piston boots.
- Step 5:** Open the small can of POR-15 Rust Preventive Paint and stir, making sure the contents are thoroughly mixed. Use a brush (included in your kit) paint the Caliper evenly, making sure the coating is evenly applied but not to the point where the paint runs. Because this is a rust preventive coating you want to be sure you don't miss any spots which could rust later if not covered.
- Step 6:** When your POR-15 coating is dry to the touch, with slight finger-drag remaining, (about 3 hours), open your can of POR-15 Caliper Paint, stir thoroughly, and apply the first coat in thin but even strokes. When the first coat is dry (3-4 hours), apply a second coat to achieve a beautiful ceramic-like finish. Congratulations.... you should be proud of your work. You have used the finest Caliper painting kit in the world and have achieved total rust prevention as well.

Your POR-15 kit contains a water-based highly effective cleaner, which cleans calipers better and doesn't leave residues; however, we recommend you wear protective gloves and goggles when using this kit to avoid the possibility of any chemical irritating your skin or eyes.

Information on box: Your POR-14 Caliper Paint Kit does not contain highly flammable and dangerous chemicals that other kits contain. While these dangerous and flammable chemicals may clean your calipers, they also leave residues on the metal which prevent you from achieving the best paint finish possible.

DO NOT USE POR-15 Caliper Paint on braking surfaces such as discs, drums, brake pads or shoes. If the paint comes in contact with these surfaces, clean immediately or replace parts.

Read all instructions thoroughly before use. Product should be applied in a well-ventilated, dust free environment between 13°C and 30°C degrees .

Wear safety glasses and NIOSH approved face mask when cleaning brake components. Block tires to keep vehicle from moving. Use jack stands when working underneath the vehicle.
