

# Deox-C

## Concentrated rust remover

1) This cam shaft is from a Junkers 88 World War II Combat aircraft crashed 3rd March, 1943 in Burnham, Essex England and buried until 25th August, 1985. Severe corrosion had occurred during the 41 year burial period

2) Deox-C solutions can be varied in strength from 5-20%. For the heavy corrosion on the cam shaft a 10% solution was made by adding 1 part powder to 9 parts water.

3) The geared end is submerged into the crystal clear Deox-C bath.

4) After a 12 hour period at room temperature the solution has turned pale yellow. A Deox—C bath gets darker with use and is only exhausted when it is completely black.

5) By gently agitating the surface with a stiff-bristled brush any corrosion deposit clinging by surface tension is released.

6) The resulting surface is microscopically clean and ready for coating, plating or preservation.

- 1 kilo (makes max 20 litres rust remover)
- 5 kilo (makes max 100 litres rust remover)
- 25 kilo (makes 500 litres rust remover)
- Easy to use requires no effort even on heavy rust.
- Doesn't require constant attention.
- Economical to use—concentrated powder dissolves up to 1 part product in 19 parts of tap water, a powerful solution that can be reused.
- Harmless, non-toxic and biodegradable.
- Produces a microscopically clean bare metal finish (even better than a blast cleaned surface).
- Does not destroy or distort delicate steel.
- Harmless to glass, plastic, aluminium and chrome.
- Gets into every flaw and crevice - the only way to get intricate parts totally clean.
- Works on internal surfaces of hollow objects and structures.
- Eliminates grit embedment—a recognised problem with blast cleaning that causes premature coating failure and destruction of engine parts upon re-assembly.
- Frees rust frozen parts, without the need for heat—will not anneal heat-treated components.
- Based on renewable resources.

### Customer Comments:

**"have found the Deox-C to be quite amazing.....I would recommend it to anybody who demands excellence."**

Mr. C. Bristow, East Sussex U.K.

**"I write to say how pleased I am with your product Deox-C. It proved very effective at removing deep pitted rust and I found it very easy to use and very eco friendly."**

D.S. Interiors, Lancs U.K.
